

915 Walnut Green Roof
 Kansas City, Missouri

Jeffrey L. Bruce & Company provided design and construction administration services for the green roof plaza and community space to support a new condominium development located at the historic Fidelity Bank Building in downtown Kansas City.

Located on the eighth floor parking deck of the 36-story art deco Fidelity building, the site commands a spectacular view of the re-emerging downtown fabric of Kansas City.

Envisioned as a secluded retreat for residents, JBC incorporated many emerging technologies to confront the inherent challenges of constructing greenroof projects in the urban fabric.

- green infrastructure ●
- campus design ●
- parks and recreation design ●
- water resource management ●
- athletics and sportsfield design ●
- urban design ●
- site development ●
